Hello CPOA members.

Over the past few months the CPOA has been looking for a partnering company to help generate funds for the CPOA. We have worked out a deal with the "Ring.com" company. They have provided us with a coupon to share with our communities to receive a discount on their product. The doorbell camera system sells for $200 and the purchaser receives a $25 credit on each doorbell purchased. Please share this coupon with your communities. Also, be careful to mention that this is for our use in **Palm Beach County** and not meant to be sent nationwide. If the company starts to get too many outside Palm Beach County they will deactivate the coupon and re-issue us a new one. That may be an issue and we don't want to confuse the community members.

The Ring.com doorbell camera system is the same doorbell camera seen on TV. It is easy to install and the user will receive instant alerts via their mobile devices as well as video access. This is great for your Neighborhood Watch groups. Please share with your communities and encourage them to share with their family and friends.

Thank you,

Karl Martin
President PBCCPOA
